

What Is Renaissance Home Connect™?

Renaissance Home Connect is connecting parents and extending practice

Renaissance Home Connect improves the school-to-home connection by allowing parents and students to log in to a website and view the student's reading practice and progress towards goals. Access to online results promotes discussion between parents and students, which motivates students and can make reading even more effective. In addition, parents can specify up to six email addresses to receive automatic updates in English or Spanish on their student's reading progress.
