Positivity Project: Open-Mindedness

This week our school community will be focusing on the character strength of *Open-Mindedness*. Open-mindedness means you like to consider new ideas and try new things. You examine things from all sides and don't jump to conclusions. Open-mindedness is the willingness to actively search for evidence that goes against one's favored opinions, plans, or goals. Open-minded individuals are able to weigh all evidence fairly, when it is available. They see the other side and fight the tendency to have a bias for their own views. And, rather than favoring the socially dominant views, they give attention to those that are less dominant. Open-minded individuals are often good listeners and called upon to provide a balanced viewpoint. Both listening and the ability to deliver reasonable and practical advice are marks of good friends and confidantes. This strength helps individuals form meaningful and lasting relationships.
