Positivity Project: Other People Mindset

This week our school community will be focusing on the Other People Mindset of **Knowing That My Words and Actions Affect Others**. Everything that you say and do can affect others -- and your relationships with them. Everything we do, say, text, tweet, snap, or post can positively or negatively impact other people. Our words and our actions are our choices to make, but they can have ripple effects long after we make them. Words and actions have the power to lift others up or tear them down, but, our words and actions also impact ourselves. When a group is comprised of individuals who are thoughtful about their words and actions -- individuals who show respect and consideration for the people around them -- we're likely to have a happier and healthier culture.
