Positivity Project: Fairness

This week our school community will be focusing on the character strength of **Fairness**. Fairness means you believe that all people have value. You approach situations with an unbiased mindset and treat everyone with respect. Fairness is the product of moral judgement — the process by which people determine what is morally right and what is morally wrong. Moral reasoning has been explored and analyzed in two main traditions: the justice reasoning approach and the care reasoning approach. For individuals, cultivating the character strength of fairness is correlated with highly desirable developmental outcomes. It helps people to become trustworthy friends, responsible citizens, and generally moral people.
